

# Bachelor of Pharmacy (Honours)

# The UQ School of Pharmacy

The School of Pharmacy is located at the Pharmacy Australia Centre of Excellence (PACE).

This world class facility, the first of its kind in Australia, is a \$100m precinct dedicated to pharmaceutical research, education and commercialisation.

As a UQ Bachelor of Pharmacy (Honours) student, benefit from the cutting-edge facilities offered at PACE, which include:

- Modern, well-equipped laboratories and pharmacy counselling rooms
- Collaborative teaching and meeting spaces
- Six simulated pharmacies
- Located adjacent to a large teaching hospital
- Academics that are award-winning teachers and respected clinicians and researchers in the broad pharmacy discipline
- On-site branch of the UQ Library, designed by students, for students. The library offers a wide range of quiet study spaces, as well as group interaction rooms.

**Bachelor of Pharmacy (Honours)**  
Taylor's University

**Apply with your most recent transcript any time after receiving your semester three results**

**Bachelor of Pharmacy (Honours)**  
The University of Queensland

**Complete your degree in three years instead of four years**

To be eligible for one year of credit in the Bachelor of Pharmacy (Honours) at The University of Queensland, students are required to complete two years in the Bachelor of Pharmacy (Honours) at Taylor's University. Interested students are encouraged to contact Chloe Lee [chloe.lee@uq.edu.au](mailto:chloe.lee@uq.edu.au) to determine their eligibility for this option.

# Why study at UQ?

## A recognised qualification

UQ Bachelor of Pharmacy (Honours) graduates practice around the world, in Australia, Canada, Malaysia and Singapore. Australian registration necessitates meeting standards set by the Pharmacy Board of Australia (PBA), including completing an Intern Training Program, 1,824 hours of clinical practice and examinations approved by the PBA, after graduation.

## Rankings

23 in the world for pharmacy and pharmacology QS World University Rankings 2023.

## Benefit from SCRIPT

An award winning communication program specifically for Bachelor of Pharmacy (Honours) students. Developed by the UQ School of Pharmacy, the Skills for Communicating and Relating in Pharmacy Training (SCRIPT) program helps students master cross-cultural communication with patients and health professionals, increasing employment prospects.

## Experience working as a pharmacist

You will benefit from a comprehensive placement program which enables you to experience a diverse range of career options including community and hospital pharmacy. You can also engage in placements anywhere medicines are found eg. in community health clinics, ambulance services and other areas.

## Opportunity to undertake individual research experience

The Clinical and Experimental Therapeutics major is for high achieving students who want an in-depth research experience. Students undertake a research project under the guidance of an experienced researcher with no extra time or cost. Past UQ Bachelor of Pharmacy (Honours) graduates now have successful careers in pharmaceutical companies, research institutes, hospitals, government agencies and universities — in Australia, UK, USA, Singapore and Malaysia.

## An interprofessional education experience

We teach you how to collaborate with other health professionals. Starting in year one with HLTH1000 Professions, People and Healthcare, you join 14 health disciplines to learn about health and wellbeing from a range of perspectives and how to navigate the complexity of health and social care systems locally and globally. The course provides a multiprofessional, interactive experience which will set you apart as a UQ graduate and lay the foundation for your development as a leader in your chosen profession.

*“UQ is an outstanding, high-achieving university, well-known to many. The PACE building specifically built for research, and for pharmacy students allowed me to make the perfect decision of studying at UQ.*

*My favourite learning activity would be the blended learning LearnX content for my courses. This learning style gives me more freedom and I can diligently plan my timetable for maximise my time. I can still work while studying which is definitely a bonus.*

**Priscilla Teng**

Bachelor of Pharmacy (Honours) student

# Your UQ study plan

## Taylor's University - Bachelor of Pharmacy (Honours)\*

#16 units credit awarded for:

- BIOM1051 Introductory Cellular Physiology
- BIOM1052 Integrated Anatomy and Physiology
- PHRM1101 Pharmacy Practice and Medicines Management 1A
- PHRM1102 Pharmacy Practice and Medicines Management 1B
- PHRM2201 Pharmaceutical Sciences 2A
- PHRM2202 Pharmaceutical Sciences 2B

Year 1	Year 2
<b>Semester one (February)</b> BIOL1020 Genes, Cells and Evolution PHRM2101 Pharmacy Practice and Medicines Management 2A PHRM2500 Pharmacokinetics and Medicines Management	<b>Semester one (February)</b> PHRM3101 Pharmacy Practice and Medicines Management 3A PHRM3201 Pharmaceutical Sciences 3A PHRM3301 Social Pharmacy and the Health System 3A
<b>Semester two (July)</b> HLTH1000 Professions, People and Healthcare PHRM2102 Pharmacy Practice and Medicines Management 2B PHRM2300 Social Pharmacy and the Health System 2A	<b>Semester two (July)</b> PHRM3102 Pharmacy Practice and Medicines Management 3B PHRM3202 Pharmaceutical Sciences 3B PHRM3302 Social Pharmacy and the Health System 3B

Year 3	OR Year 3 Clinical and Experimental Therapeutics Major
<b>Semester one (February)</b> PHRM4101 Pharmacy Practice and Medicines Management 4A PHRM4071 QUM Research Focussed Placement or PHRM4072 QUM Pharmacy Practice Placement	The major gives students the opportunity to extend their research experience even further by undertaking a research project mentored by some of the leading researchers in Australia.
<b>Semester two (July)</b> PHRM4102 Pharmacy Practice and Medicines Management 4B PHRM4071 QUM Research Focussed Placement or PHRM4072 QUM Pharmacy Practice Placement	<b>Semester one (February)</b> PHRM4080 Independent Research Project PHRM4101 Pharmacy Practice and Medicines Management 4A
	<b>Semester two (July)</b> PHRM4080 Independent Research Project PHRM4102 Pharmacy Practice and Medicines Management 4B PHRM4062 QUM Pharmacy Practice Placement
